

Free list of 400 practice words – <http://www.typingtutorcourse.com/>

The following list is the 400 most commonly used words in the English language, from the top of a list of the 86,800 most frequently used English words, ranked in order of commonness, compiled by [Jonathan J. Harris](#), et al., as part of “WordCount™, an artistic experiment in the way we use language.” As he notes at <http://www.wordcount.org/main.php>, “WordCount data currently comes from the [British National Corpus®](#), a 100 million word collection of samples of written and spoken language from a wide range of sources, designed to represent an accurate cross-section of current English usage.”

For practice (and for improving spelling abilities while learning how to type faster) [Zoom-Type](#) includes a separate list of Dolch 220 – a list of the 220 most commonly used words. As with that list, we have grouped these 400 words in boxes of ten words, to make it easy to gauge how many words per minute a person is typing. Happy speed-typing!

The 400 most common English words from WordCount™

the of and to a in that it is was	1	have are this not but had his they from she	3	all their has would will what if can when so	5	into its then two out time like only my did	7

Touch type fast using Zoom Type! Learn it in just 5 days.

Away with stress. Away with mess. Away with writing fatigue.

Start touch-typing today!

Learn on the go...

in the car, on a plane, in the park.

Totally portable.

No computer keyboard necessary.

Nearly effortless.

The pictures keep working on you overnight.

The letters appear and disappear...

Now you see them, now you don't!

You'll "finger-tap" your way through fast-changing-snapshots right on the pages of this book!

When you SEE them . . . All you do is,

1) TAP the letters with the correct fingers

and,

2) SAY the letters out LOUD as you tap.

When you DON'T SEE them...

You tap and say out LOUD what you remember they were!

That's all there is to it. That's it, folks!

Why poke around any longer? Learn the easy way.

Begin today.

This typing program is truly an inspired method of teaching. My students took to it like fish to water. My second graders were typing within a week. It's incredible!
Mr. Stayer - CO
